

Guidelines

Become a DCA-therapist in a correspondence course

We welcome your interest to develop the skills of a DCA-therapist. This document provides you with all information according to the technical pathway of the course. This way you can decide, whether it is more appealing to you to come to one of our trainings, or to absolve a correspondence course.

The steps in a correspondence course are as followed.

1. YOU apply in written form (Fax, Brief, PDF) to the correspondence course. The application form can be found on our website via services / workshop.
2. YOU advise the full course payment via PayPal or bank transfer to our account.
3. WE send you a first parcel with the whole manual for self-study. The manual is extensive and conforms fully to the topics that we teach in our inhouse or local courses. It is didactically rehashed to the needs of a correspondence course.
4. YOU work off the manual in your own speed. Afterwards you confirm that you have completed the course. We don't use exams, cause in our experience the professionals participating in this course work very engaged and liable.
5. WE send you in a second package the certificate that confirms your degree as a DCA-therapist.
6. The second package is accompanied with a voluntary application form to get registered in the worldwide websearch for DCA-therapists on our site. This service is of course free of charge and optional.
7. From now on you are as well licensed to log into our forum and to discuss your issues with other DCA-therapists. Please undertake the registration directly on our website in the designed area. This service is of course free of charge and optional.
8. YOU can approach us within one year after your application to the course to obtain one free-of-charge consulting. It is limited to a period of 30 minutes on your call charge. This compensates amply the amount of time our correspondence course participants miss in comparison to our „live-courses“.

We would be honored to welcome you as a new DCA-therapist.
